- 2. Demonstration of how to login and use the PA PQC Data Portal and Dashboard –** Peter Nguyen, MBA, MHA, Lead Data Analyst, Quality Initiatives, HAP

Introduction

ROBERT FERGUSON, MPH, JEWISH HEALTHCARE FOUNDATION

Perinatal Quality Collaboratives (PQCs)

PQCs are networks of teams working to identify processes that need to be improved and quickly adopt best practices to achieve collective aims

PA PQC Aims

- ✓ Reduce Maternal Mortality and Morbidity
- ✓ Improve Identification of and Care for Pregnant and Postpartum Women with Opioid Use Disorders (OUD)
- ✓ Improve Identification of and Care for Opioid-Exposed Newborns (OEN) and Neonatal Abstinence Syndrome (NAS)

PA PQC Resources for the PA PQC Sites to Achieve the Aims

- Quarterly learning collaborative sessions to report out and learn how to implement key interventions for quality improvement (QI) projects
- Vermont Oxford Network (VON) NAS Universal Training Program
- Webinars with progress updates and topic-specific speakers
- Data Feedback via
 - VON Days Quality Audits for NAS
 - **PA PQC Data Portal and Dashboard**
- QI coaching from the PA PQC team

The NEPaPQC is also providing QI and data collection support

PA PQC Data Portal Timeline

First week of June:

- Your PA PQC Data Champion will receive a log in for the data portal and dashboard

The first week of each month:

- Submit aggregate data on a monthly basis for all required and optional, prioritized measures
 - (Except for maternal morbidity and NAS hospital LOS, which are submitted on a quarterly basis)

PA PQC Data Definitions
