Learning Objectives

1. Describe the PA PQC's collective successes and 2022 initiatives
2. Describe examples of how PA PQC health care teams improved care for maternal OUD, NAS, and immediate postpartum LARC (IPLARC)
3. Discuss how to close the loop on referrals to Early Intervention services and how to follow-up with families to support their engagement in Early Intervention services
4. Describe strategies for responding to secondary trauma and burnout
5. Identify the key interventions your PA PQC health care team has already implemented for OUD or NAS care, and consider the key interventions for maternal Substance Use and Substance Exposed Newborns (SEN) your team may wish to prioritize for 2022
6. Identify action items to take back to your PA PQC health care team to inform your quality improvement initiatives for Substance Use (including OUD), SEN (including NAS), PA AIM, MOMD, or IPLARC

Each PA PQC learning session participant will join one of the virtual breakouts listed on page 3 that pertains to their PA PQC quality improvement initiative.

Substance Exposed Newborn (SEN) & NAS Breakout – PA PQC SEN Work Group Chairs

The PA PQC health care teams will review the updated SEN Driver Diagram, identify the key interventions their team is implementing or now sustaining, and consider the key interventions their team would like to prioritize for 2022. There will also be time for peer-to-peer learning.

Maternal Substance Use and OUD Breakout – PA PQC Substance Use Work Group Chairs

The PA PQC teams will review the updated maternal Substance Use Driver Diagram, identify the key interventions their team is implementing or sustaining, and consider the key interventions their team would like to prioritize for 2022. There will also be time for peer-to-peer learning.

Immediate Postpartum LARC (IPLARC) Breakout – Maya Oaks, Director of Reproductive Health Programs, ACOG; Nisha Verma, MD, Darney-Landy ACOG Fellow

This breakout will focus on patient-centered strategies for educating patients who have misconceptions about Long-Acting Reversible Contraception (LARC).

Moving on Maternal Depression (MOMD) Breakout – Facilitated by Carol Frazer, MEd, LPC, Practice Transformation Specialist, Pittsburgh Regional Health Initiative

This breakout will provide an opportunity to reflect on the strategies presented during the December 2 MOMD session about how to share information between maternity and mental health care teams.

There will also be time for the MOMD health care teams to consider next steps and priorities in 2022 based on the recent MOMD survey findings.

PA AIM Severe Hypertension and Racial/Ethnic Disparities Breakout – Adriane Burgess, PhD, RNC-OB, CCE, CNE, C-ONQS, Director, Quality Improvement-Service Lines (Women and Children, Primary Care, Oncology), Ob/Gyn Residency Research Director, WellSpan Health

The breakout will provide a review of select AIM Severe Hypertension Bundle Components from WellSpan and provide a peer-to-peer learning space for the PA PQC health care teams participating in the PA AIM initiative.

12:25 p.m. to 12:30 p.m. – **Wrap-Up & Next Steps** – Pauline Taylor, Program Specialist, Jewish Healthcare Foundation
